

شركة تحكم العالمية Global Control Company

PRODUCT PORTFOLIO

ABOUT US

Global Control Company (GCCO) is a leading force in engineering, supply chain management, industrial solutions, and infrastructure development. Founded on the principles of innovation, precision, and efficiency, we have built a reputation for delivering exceptional results that drive growth and success for our clients across the globe.

At GCCO, we pride ourselves on our highly skilled workforce, cutting-edge technologies, and adherence to industry-best practices. Our commitment to quality and reliability makes us the partner of choice for businesses seeking seamless, high-performance industrial solutions.

Our expertise spans diverse sectors, allowing us to offer comprehensive solutions that are both scalable and sustainable. Whether it's optimizing supply chains, engineering robust infrastructures, or implementing advanced industrial technologies, GCCO is dedicated to exceeding expectations and setting new standards of excellence.

Join us as we shape the future of industrial innovation—one project at a time.

OUR DIVISIONS

Accounts

Managing financial transactions and records. Contact us for invoicing, payments, and account inquiries.

Phone: +966 55 521 6838

Email: accounts@control.com.sa

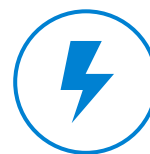

Logistics

Coordinating the movement of goods and materials. Reach out for shipping, delivery, and supply chain support.

Phone: +966 13 844 6669

Email: logistics@control.com.sa

Power

Driving energy solutions with expertise in power generation and distribution systems. Contact us for reliable operations.

Phone: +966 50 940 5352

Email: ammare@control.com.sa

Oil & Gas

Specialized support for the oil and gas sector, delivering procurement and logistics. Reach out for upstream and downstream solutions.

Phone: +966 57 127 7650

Email: sales@control.com.sa

Showroom/Stocks

Showcasing a wide range of fast-selling materials and inventory solutions. Visit us to meet your demands efficiently.

Phone: +966 55 315 7966

Email: khalid@control.com.sa

Contract Supplies

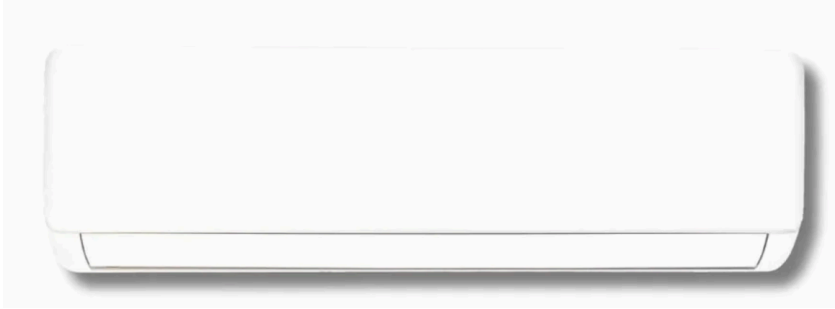

Efficient management of MRO and large-volume contract supplies. Get in touch for tailored business solutions.

Phone: +966 50 518 6037

Email: mushtaq@control.com.sa

BRAND WE DEALS IN:

SUPER Green, DAIKIN, Zamil AC, YORK, LG Electronics, Mariam Trading Co.,
WellSox, RosenBerg, SANA Group, ARMSTONG Pumps.

AC Inverters

Enjoy energy-efficient comfort with our Inverter AC: variable-speed compressor reduces energy use by up to 40%, ultra-quiet operation, advanced air-purification filter, eco-friendly refrigerant, and smart controls for effortless climate management.

Standing AC inverters

Powerful standing AC in two capacities—1.5T for standard rooms and 8T for large halls. Its inverter compressor cuts energy use by up to 40%, ultra-quiet operation, advanced air-purification filter, eco-friendly refrigerant, and smart controls.

Cassette AC

Cassette AC offers sleek ceiling integration with 33,000 BTU cooling and 9.5 kW heating. Uniform air distribution, whisper-quiet operation, and intuitive smart controls deliver efficient, year-round comfort.

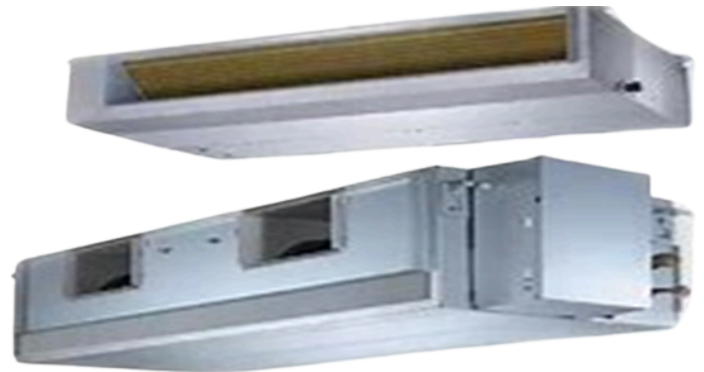

AHU

Our AHU units deliver precise ventilation and temperature control with high-efficiency fans, advanced multi-stage filtration, and a modular, compact design. Integrated smart controls and whisper-quiet operation ensure optimal indoor comfort and air quality.

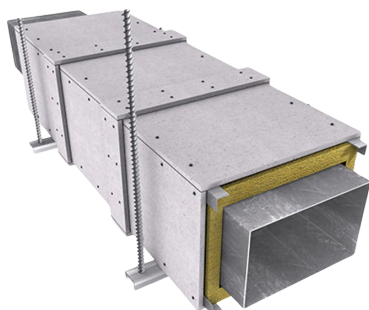

EconoFresh Economizer

York VRF Econo Fresh Economizer boosts efficiency and indoor air quality by modulating fresh-air intake and recovering latent heat—cutting HVAC load up to 30%. Built-in sensors deliver precise temperature and humidity control year-round.

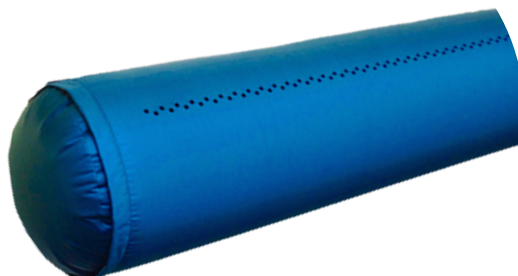

Packaged Units

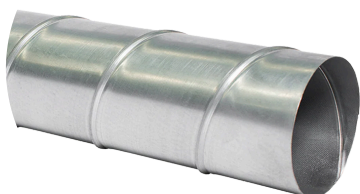

Rooftop Core Units deliver cost-effective code compliance for first-cost-conscious projects. Available as A/C and heat pump in downflow or horizontal airflow.

Industrial Water Filtration System

Reverse osmosis systems

Ultra-filtration system

Ultra filtration (UF) systems are a powerful water treatment technology utilizing hollow fiber membranes to remove impurities from various water sources.

Reverse osmosis is very effective in treating brackish (surface and ground) and sea water for larger applications.

BRAND WE DEALS IN:

Riyadh Cables Group Company And Asharqiyah Cables

CABLES

Low Voltage Lead Sheathed

Durable cable with lead sheath, offers excellent insulation, moisture protection, and mechanical strength for low voltage power distribution systems.

Medium Voltage Cables

Ideal for distributing power between substations and buildings, these cables balance voltage strength and insulation for stable, efficient energy transmission.

Fire Survival Cable

Specially engineered to maintain circuit integrity during fire, ensuring continued operation of emergency systems like alarms, lights, and ventilation controls.

Telephone Cables

Used for voice and data transmission, these multi-core cables provide clear signal quality and reliable communication in residential and commercial setups.

High Voltage Cables

Transmit large amounts of electricity over long distances; built with heavy insulation and shielding to handle extreme voltages safely and efficiently.

Ethernet Cables

Transmit large amounts of data over cabins; built with insulation and shielding to handle data losses speed and efficiently.

SWITCHES

LEGRAND REF. 079101L

Modular switch designed for reliable performance and sleek aesthetics, ideal for modern residential and commercial electrical installations.

LEGRAND REF. 079111L

Compact, high-quality switch offering easy installation and robust performance, suitable for general lighting and power control systems.

LEGRAND REF. 079211L

Functional and aesthetically refined, this switch supports seamless integration in modular panels and modern electrical layouts.

LEGRAND Mosaic™ REF. 079215

Part of the Mosaic™ range, features elegant design and strong durability for demanding commercial and residential projects.

LEGRAND REF. 079201L

Stylish and ergonomic switch with snap-in mounting, provides user-friendly operation for both home and professional environments.

LEGRAND REF. 079126L

Single-pole switch with durable construction and smooth operation, ensuring long-lasting functionality in various low-voltage control applications.

SINGLE CUBICLE

Single cubicle, group-mounted distribution panel with IP54 protection rating, designed for reliable performance and protection against dust and water.

PANEL BOARD

Distribution panel board designed in compliance with SABIC engineering standards, suitable for both indoor and outdoor installations across various applications

STREET LIGHT PANEL

Outdoor street lighting panel board approved by Riyadh Municipality and compliant with specifications from other municipalities across Saudi Arabia

LIGHTS

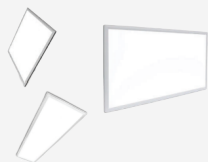

Surface Mounted Lights

Durable cable with lead sheath, offers excellent insulation, moisture protection, and mechanical strength for low voltage power distribution systems.

High-throw Lights

Powerful high-throw lights projecting long-range, intense illumination for expansive areas.

Pendent Lights:

Elegant ceiling-mounted fixtures providing focused illumination and decorative ambient charm.

LED Street Lights:

Durable LED streetlights providing bright roadway illumination with simple maintenance.

LED Spot Lights:

Adjustable LED spotlights offering high-intensity directional lighting for accentuating features.

LED STRIP LIGHT

Flexible LED strip lights offering customizable length, colors, efficient illumination.

Surface Lights:

Low-profile surface-mounted lights delivering uniform, energy-efficient illumination in any space.

LED T8 TUBELIGHTS

With 180 lumens/Watts delivering soft glow in indoor structures. Affordable lighting solution for Home and Office environments.

LED Flood Lights:

Robust LED flood lights casting bright beams for security lighting.

LED Sports Lights:

High-power LED sports lights delivering glare-free illumination for outdoor arenas.

We provide a full range of industrial safety gear including boots, jackets, suits, glasses, and soaps. Designed to protect workers in harsh environments. Each product meets rigorous safety standards, ensuring comfort, durability, and reliable protection on-site.
